

DINING TABLE **FELIZA**

FELIZA is a very sturdily manufactured table with a real wood veneer and is particularly striking due to its curves, which are beautifully crafted on the table top, legs and frame. We offer the table in stained and lacquered beech and oak. The wood of the table is stained oak. Due to its height of 75.5 cm and its rounded edges, the table is barrier-free, so that a wheelchair can also fit at this table. The table is available in two sizes, 160 x 80 cm and 80 x 80 cm, and can be placed together or separately in the dining room as required. FELIZA can be placed next to each other to form a large table. Thanks to its many positive properties, our solid wood table is perfect for the health & care sector.
