

COFFEE TABLE LIBERTY T

Intended for the lounge furniture LIBERTY, this side table can be seamlessly integrated into the system and thus perfectly complements the combination options of this product family (can also be used stand-alone / in combination with other lounge furniture). Thus, it can not only be optimally integrated into a wide variety of room situations, but also fulfills diverse requirements and functions: from relaxed waiting as an individual, to communicative exchange in a group, everything is possible. The soft outer contour of the tabletop is analogous to LIBERTY and is intended to be somewhat reminiscent of cuddly pebbles in a riverbed. The legs are also deliberately designed in a square profile to create a small contrast to the very round shapes ("the well-known salt in the soup").
