

DINING TABLE T12 SLIM

The T12 Slim table frame developed by GO IN itself is purist and timeless in its design language. The coating consists of a silk matt powder coating with a fine structure. T12 Slim is available in the same colours as the matching P32 and P33 chairs. This offers scope for many design options. Especially in combination with the Compact Slim table tops, both a tone-in-tone look and an attractive mix of colours are possible. T12 Slim is equipped with height-adjustable floor glides so that unevenness on the floor can be well compensated and there is no wobbling of the table. The T12 Slim table frame, which is suitable for outdoor use, is available in dining table and coffee table heights. Let your imagination run wild and create the right ambience for your guests.
