

TABLETOP SENDO A

With Sendo A, you get a solid teak tabletop in a slatted design – without a visible frame and with softly rounded corners for an exceptionally modern, light appearance. Steel supports on the underside ensure high dimensional stability and durability, even with intensive use. Among wood enthusiasts, teak is considered the reference material for outdoor furniture: it is weather-resistant, can remain outdoors all year round, and when left untreated develops an elegant silvery-grey patina. Anyone who wishes to preserve the warm yellow-brown natural color and keep the surface particularly easy to care for should treat the tabletop with a suitable care oil before first use and refresh this treatment regularly. The teak wood used comes from sustainable forestry.

- Solid teak tabletop with a modern, frameless look
- Steel supports and teak – stable and suitable for year-round outdoor use
- Teak from sustainable forestry
- Solid teak tabletop with a modern, frameless look
- Steel underframe and teak – robust and suitable for year-round outdoor use
- Teak from sustainable forestry
