

HIGH TABLE TAVON

The Tavon high table base was specially developed for demanding use in the hospitality sector and combines a robust steel construction with an elegant black e-coating powder coating. The surface is rust-free and scratch-resistant, making it ideal for daily use in bars, bistros or hotel lounges – whether indoor or outdoor. The design, featuring an appealing combination of square and round tube elements, blends harmoniously into almost any Bar stool and interior concept. Thanks to the two versions available, the base is suitable for Tabletops with a length of 120 cm as well as for generous Tabletops with a length of 180 cm. For optimal logistics and on-site assembly, the base is delivered disassembled and can be assembled in just a few simple steps. This ensures your project remains flexible in planning, without compromising on stability, appearance and durability.

- Robust steel frame with black e-coating powder coating – rust-free and scratch-resistant.
- Mix of square- and round-tube design, suitable for almost all Bar stools and interior concepts.
- For intensive use in hospitality, suitable for both indoor and outdoor.
